

Atlanta took the crown in 2006, and in 2007... KPS is coming to a region near you!

For Immediate Release

January 15, 2007

2006 ended with the highly-coveted KPS National Finals Championship in Las Vegas. Team New South, representing Atlanta in a professional & spirited style, won the tournament handily, giving all the other teams playing in the most competitive tournament of their amateur careers, something to work towards for next year. Even the teams not making the final bracket in the tournament had found content in Las Vegas by attending the 2006 KPS Finals After-Party. The party was hosted by KPS for athletes and sponsors from around the country. Now, over a month later, Team New South is back in Atlanta, preparing for upcoming KPS seasons while enjoying the \$5,000 Grand Prize winnings.

KPS has initiated 2007 by expanding its sports leagues into several new regions. KPS is working with various new leagues in an effort to provide more and more athletes across the country with the unique benefits that KPS provides. The goal for KPS in 2007 is to expand with many new leagues in several regions across the country, bringing even more visibility to the amateur athlete. Keep an eye out for KPS in your region!
