

KPS announces launch of media-based site: - KPS TV -

For Immediate Release

February 12, 2007

KPS is entering 2007 offering more benefits than ever before to athletes across the country. As if national recognition for athletes, free travel opportunities, prize money, high-quality jerseys, full stats and the host of online features KPS offers its members weren't enough, KPS is now announcing the launch of **KPS TV**.

KPS TV was created to fully integrate media into the KPS offerings, bringing more exposure to the players and partners involved with KPS. **KPS TV** will also bring videographers and photographers in each KPS region out to cover local games, with the photos and videos being regularly updated and integrated with the KPS website.

Perhaps some of the more exciting news of the **KPS TV** launch comes from the talks KPS is having with major national hip-hop artists and clubs for its distinguished after-parties. Additionally, KPS is currently working with a prominent television production company in creating a reality/documentary about KPS and its unique athletes. KPS is considering several networks for the series.

Interested parties can visit KPS at www.PlayKPS.com or **KPS TV** at www.KPStv.com.
